

NAA Statement on COVID-19 and Rent

ARLINGTON, VA | March 23, 2020 – The following is a statement from National Apartment Association (NAA) President & CEO Robert Pinnegar, CAE:

The National Apartment Association and its more than 150 state and local affiliates, encompassing over 82,000 members and representing more than 10 million apartment homes, encourage all residents who are in financial distress to proactively reach out to work with their community managers prior to April 1. Many of our rental housing professionals already have individual plans in place to work with their residents in this unprecedented crisis. There is no “one approach fits all.” The best strategy, and NAA’s recommendation, is for owners, managers and residents to partner together to find the optimal solution. Providing a secure home for all of our residents is our primary goal.
